NOTICE OF ALLOWANCE

Allowable Subject Matter

1. Claims 1 and 5-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention pertains to a wrench having a visually recognizable mechanism that relies upon various hues, and various hue levels, for identifying its classification. As demonstrated by the prior art of record, it is known to provide a color coding system for hand tools, however, each of the prior art systems rely upon distinct colors, and combinations of distinct colors, in order to differentiate the various sizes of the respective tools. The present invention relies upon various hues levels of a particular color to differentiate the various sizes of the tools, e.g. light blue represents 5/16", dark blue represents 3/8", and bright blue represents 7/16". Therefore, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a visually recognizable mechanism [that] exhibits metric and British measurements by various hues, and exhibits different dimensions of the wrenches by various hue levels, together in combination with the rest of the limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David B. Thomas whose telephone number is (571) 272-4497. The examiner can normally be reached on 7-4 M-F.
